Education

2016 - 2020

Amity School of Engineering & Technology, Noida-
Bachelor of Technology CSE CGPA - 6.77

2015-2016

Rao Man Singh Public School, New Delhi -
CBSE High School Class 12 % scored - 90.6

Projects

FileBox - Node based RESTful API, consumed by an Angular based front-end to serve as a file hosting web service, Hosted on AWS EC2.

Live at- filebox.bhavay.me

Backend - <https://github.com/bhavayAnand9/files-portal-backend>

Frontend - <https://github.com/bhavayAnand9/files-portal-client>

- Technologies used - NodeJS, JWT, Nginx reverse proxy, MongoDB, Send-Grid, Angular7
- Uses Nginx reverse proxy for multiple sub domain configuration and serving angular compiled files.
- JWT for authentication, Multer to handle multi/form data sent via POST request.
- MongoDB database for storing user credentials and foreign references to file collection.
- Send grid mails for a secure and simple password reset and signup process.

HiChat- A chat application built with Node.js and Sockets.

Live at- hichat.bhavay.me

Source code - <https://github.com/bhavayAnand9/node-sockets>

- Timestamp with every message
- Multiple users in a single room
- online users count statistic

Network-utility-kit - NPM published library to provide support for low level network software utilities using raw-socket.

Module - <https://www.npmjs.com/package/network-utility-kit>

utilities available: PING, SYN, TCP, UDP

Additional Information
